mrgoldsdearie asked:

Edward talks Oswald into bringing one of his most secret fantasies to life. It took months and endless discussions between them, but Oswald finally agrees to a threesome with Foxy. Oswald just wants to make his hubby happy and he'll put his possessiveness aside for one night just for Ed to live out a fantasy. Oswald is surprisingly enthusiastic when he and Foxy double penetrate Ed.

Yes!

Give him the Penguins and cats, Ed! Makes this happen!

(Btw, I love the way you drew Foxy here! Omg!)

I feel like Ed is like kind of person who genuinely enjoys and gets turned on giving oral, am I way off the mark here? Like he'd get off on having his face fucked.
